

From The Editor's Leashes...

I grew up in a house full of animals and my mother always took in dogs that no one else wanted. I have rescued two dogs and they are the best dogs I could ever wish for.

A few weeks ago I received an email about the 20/30 Group, a group of young professionals in Paducah – many of them dog owners. They were trying to open a dog park in the city. A dog park is just that; a park where dogs can run and play with their owners. Murray and Owensboro have beautiful dog parks but Paducah does not. There is no place to walk your dog off a leash and without a muzzle. A Facebook page was started and, after some conversations with the city, a tentative plan has been worked out. Paducah Parks & Recreation has several potential sites and the commissioners have agreed to provide matching funds for a dog park; up to \$15,000.

In conjunction with the efforts of the 20/30 Group, the Paducah Parks Services is attempting to raise private funds that will be matched to construct a public dog park. If like me, you believe that we should have a dog park here in McCracken County please make a donation. The city commissioners are supportive and it's really a question of raising the cash - (isn't it always.) Milo and rascal thank you in advance :)

-Karen Hammond

For more information contact Trace Stevens at 270-444-8508 extension 7 or tstevens@ci.paducah.ky.us. The following links have the park overview presentation as well as fundraising information.
